## ADV-CARE Releases Updated Mobile App for its Canadian Online Pharmacy

TORONTO, ON--(Marketwire - November 29, 2016) - Canadian-based mail-order, online pharmacy, ADV-CARE Pharmacy, ([www.advpharmacy.com](http://www.advpharmacy.com) / [www.adv-care.com](http://www.adv-care.com)), has updated its mobile, smartphone app that provides patients current prices, the ability to fill/refill their prescriptions and other services while on the go, any-time, any-place.

"It is the industry's only pharmacy app that processes written paper prescriptions with a complete medical profile and payment information using Mobile Apple iOS and Google Android systems," says ADV-CARE Marketing Manager, Naim Oriezi. "The processing is secure, convenient and private -- providing the pharmacy all information required to safely fill a prescription from new or existing customers."

Based on customer feedback, the current updated app streamlines the order flow and simplifies its mobile screens to enhance customer interaction and satisfaction.

ADV-CARE registered customers log in directly to the app's secure ADV-CARE account using their usual username and password. Once logged-in, users can enjoy the convenience of customized services including:

- Comparing prices of alternative medications for their prescriptions
- Access to their complete medical profile
- Securely send payment and provide delivery options

New customers also can search drug prices, securely register with the pharmacy and fill their prescription(s) directly from the app.

The latest version of ADV-CARE Pharmacy's mobile app is available for download on both the Apple App Store and Android Google Play Store. It can also be downloaded by searching ADV-CARE Pharmacy or Canadian Pharmacy.

"In the coming months, we plan the next version to integrate the mobile app with our PK+ Pharma Kiosk which can collect original written prescriptions 24/7 for further pharmacy filling," adds Oriezi.

### About ADV-CARE Pharmacy

ADV-CARE Pharmacy provides secured personal, confidential, comprehensive and customized pharmaceutical services on a one-to-one basis. Patients talk directly to its pharmacist for all their medications concerns. Medications ordered with doctor's prescription(s) are delivered directly to patients in many countries. Registered patients have a record of previous purchases for easy re-ordering and receive transaction confirmation and reminders by phone or email. New patients can fill their new prescription on-line using its secured website any time 24/7 built on IBM technology, a service only provided by ADV-Care Pharmacy. In addition to individual patient's service, the company provides pharmaceutical, specialty and orphaned drugs to clinics and intermediaries in multiple languages.
